

# Automated District Management System™

Powerhouse new program for district leaders!

Imports data from ScoutNET, TroopMaster and PackMaster!

- Tracks district and unit leaders, including personal data, training, special awards, leadership positions/history, and O/A.
- Tracks all units in your district, including location, meeting place, chartered organization, points of contact, unit scouts/adults, membership (current and history), advancement progress, roundtable attendance, visitations, charter status, popcorn sales, Friends of Scouting donations, and much more!
- "Validate" function for Eagle Candidates-helps confirm all requirements are met.
- Tracks merit badge counselors, including personal data, badges taught, original and most recent certification dates, troop affiliations, and training.
- Includes a comprehensive training management capability.
- Create training schedules and credit attendees when the training is complete. Automatically generates training completion reports for your council.
- Establish training course expiration periods and use on reports.
- Group credit feature makes it easy to credit adults for prior training courses.
- Easily get training reports on your leaders and on the training status of each unit!
- Tracks individual Friends of Scouting, including personal data and donation history. Each friend can be assigned to a specific division of the FOS campaign.
- Tracks district-level activities/attendance, including meetings, roundtables, camporees, and user-defined activity types. Program automatically monitors unit attendance at roundtables.
- Database can be encrypted and system startup can be password protected. Also, sensitive data items, such as social security numbers, can optionally be hidden on displays and reports.
- Optional "DotNet" add-on allows you to centralize your district database on an FTP site so that multiple district leaders can update the same database. Your database can be encrypted to protect against hackers. Please see our web site for details!
- Nearly 100 reports in all!
- Save or email reports in HTML, Rich Text, or plain text formats
- Import data from a variety of sources, including ScoutNET, TroopMaster, PackMaster, TroopLedger, PackLedger, MBCounselors, ASCII delimited, etc.
- Much more!! A powerhouse program!
